

Check Handling: A Teller's Seminar

Webinar ▲ February 17, 2010 ▲ 1:30 - 3:30 CT

This webinar on check handling and the UCC is one of the few training programs that can pay for itself the next day by avoiding a loss on a bad check.

Paying "on us" checks and accepting checks for deposit are routine decisions for financial institutions. Both activities contain risks. Those risks are governed and, in some cases, managed by a unique combination of state and federal law. The law governing checks is state law, the Uniform Commercial Code. The law governing holds is federal, The Expedited Funds Availability Act as implemented by Regulation CC.

This webinar focuses on check handling. (It covers the model version of the UCC; it does not incorporate amendments made by any particular state.) It is presented in plain language and supported by materials that serve as an excellent reference at the teller window and at the new accounts desk. It is one of the few training programs that can pay for itself the next day by avoiding a loss on a bad check.

Highlights

- Who are the parties to a check and what are their responsibilities?
- Cashing checks at the teller window, what should we watch for?
- Accepting checks for deposit, are the risks any different?
- What are reasonable identification requirements?
- Stop payments, what information do we need?
- How soon must we return a check with a forged drawer's signature? Forged endorsement?
